## MAP AND RAG CHATBOT USAGE

The RAG chatbot can use the travel information above to answer questions about destinations, attractions, routes, transportation, food and travel tips. Map information is represented as route/search text rather than static map screenshots. The Streamlit application can later generate an OpenStreetMap or other map link from the destination and route.

## Example Questions

1. What are the best places to visit in Switzerland?
2. Give me a 5-day Switzerland itinerary.
3. What is the route from Zurich to Zermatt?
4. What food should I try in Japan?
5. Which places should I visit in Paris for four days?
6. What transportation is available in London?
7. What are the famous attractions in Dubai?
8. Give me a Bangkok travel route.
9. Which destination is good for beaches?
10. Compare Switzerland and Japan for a first international trip.
11. What currency is used in Singapore?
12. Show me the recommended map route for Switzerland.

## Important Note

Visa requirements, entry rules, attraction opening hours, transportation schedules, prices and local regulations can change. Travelers should verify current information using official government and tourism websites before making travel decisions.
